

ACS New Situation Room/Command Center

AG provided MEP engineering services for planning, schematic, design and construction documents, and construction administration for the 2,000 sq.ft. 13th floor Situation Room/Command Center. The renovation/conversion of this room is a priority project for ACS.

The room is a special-use room that will be used for weekly meetings by 50 people and for executive management meetings. More importantly, this room will be used for agency press conferences and as the ACS command center during emergency situations.

The situation room incorporated a large room with seating for 50, specialized A/V conferencing equipment, sound system equipment, security and CCTV, emergency backup systems for electrical and HVAC, an A/V control room, an IT server room, an electrical/mechanical room, storage, kitchenette and a small office.
