

DASNY Central NY Psychiatric Center

The facility combines office of Mental Health and Department of Correction and plans to expand Building # 39 with two addition for two types of patients; forensic and sexual offenders from the time they enter the facility with separate intake areas, visiting and programming

The first addition, called the Administration/Visiting/Security Addition is 3 stories, and separates the populations at the center of the Building, dividing it into the North half for the Sexual Offender Treatment Program, and the South for the Forensic Population. This addition provides for Intake of Patients on the Ground Floor, Visiting for both groups on the First Floor, and Administrative Functions on the Second Floor.

The second addition, The Program Addition, is located on the north of Building 39 and provides for Programming of the Sexual Offender Treatment Program. This addition is a single story and provides access to the Outdoor Recreation Areas.

AG is providing Plumbing engineering services for the two building additions which include sprinklering of the entire building, new fire alarm system, and piping distribution system.

Plumbing Systems Involved:

- Sewer drainage piping system
- Fire sprinkler system
- Domestic hot water system
- Piping distribution system
- Potable water distribution system
