

NYCDDC Interior Renovation of Washington Heights Branch Library

The Washington Heights Branch Library is an existing four story facility with lower level, first, second and third floor. The project consisted major renovations on the first and second floors. It also included a new computer room in the lower level. AG provided MEP, design and C.A. work including replacement of HVAC equipment, air handling units, CCUs and chiller pipe insulation. A small elevator was also added to AG's scope of work.
