

NYCDEP Special Inspection Waste Water Treatment Plant at Hunts Point

The plant is located in the northern bank of East River in Bronx. Techno/Baker JV is the construction Manager. We were entrusted to perform special inspections of welding, HVAC, duct work, air balancing, general electric systems including wire, cable, conduit, grounding, underground duct, transformers, power distribution systems, conduits, motor and motor control system and power distribution system for Phase IV Carbon Addition.

AG's scope of work included performing special inspections of all the above mentioned items as per NYC building code conforming chapter 17. All the TR forms of NYCDOB were initiated and signed off by AG's professional engineer.
