

NYCDPR McLaughlin Park Comfort Station, Cunningham Park

Cunningham Park, assembled between 1928 and 1944 and named Cunningham Park in 1934, is one of the largest parks in Queens.

MEP design services for a new park structure at the McLaughlin playground in Cunningham Park, for the Parks Department of the City of New York. This involved construction of a comfort station, storage room and the reconstruction of the adjacent landscape; with an emphasis on preserving mature trees that have grown to become an integral part of the playground environment.

Location:

Queens, NY
