

NYCSCA Construction Management Services at Public School 101M

PS 101 is a pre-kindergarten through 8th grade school located in East Harlem and is in Community School District 4. The scope of construction work is as follows: repair and replacement of the exterior masonry, flood elimination, replacement cracked/spalled cement plaster, climate control, replacement of low voltage electrical system, remove and replace roofing, parapets replacements, placement of fencing, installation of security and safety system, playground equipment, installation of playground paving and flooring.

AG was responsible for construction management of the entire construction project from the project kick off meeting to project close out. This included management of scheduling, executing and conducting all meetings, preparation of weekly and monthly reports, reviewing shop drawings, submittal, samples and mock ups, witnessing, testing, monitoring change orders and claims.
