

NYCSCA Public School 124

As a subconsultant, AG was responsible for comprehensive Mechanical/ Electrical/ Plumbing Design/Build and Construction Management services for the construction of a 23,500-sq. ft. 3-story addition to the 91,300-sq. ft. existing building. Services included electrical distribution and power control, lighting, mechanical, plumbing, sprinkler and fire protection systems for the school. This also included outdoor security lighting (based upon foot-candle criteria specified by NYC-SCA) and communication systems.
