

OGS Special Inspection Services for Water Tank Welding at Moynihan Station

Moynihan Station needed Progress & Final inspection services of the welding of water tanks fabricated at the project site.

AG visited the site to provide Special Inspections of the field welds during the welding and after the field welding operation was complete, at the written request of the owner's representative.

Prior to commencement of inspections, AG's inspectors were required to submit approved shop drawings and details of installation. The scope of work included Fabrication inspections by New York State registered engineers and Welding inspections by certified AWS Welding Inspectors or New York State registered engineers. Inspectors and Professional Engineers were required to submit inspection reports within 1 week of inspection to the designated owner's representative.

AG provided services in accordance with Section 17 of the New York State Building Code.

Location:

Moynihan Station, NY

Owner:

OGS

Services Provided:

Special Inspection
