

PANYNJ LaGuardia Airport East Parking Garage

AG's scope of work included electrical and fire alarm systems design for the new six-story East Parking Garage at LaGuardia Airport Central Terminal Area. AG was responsible for Stage I Design, as well as the following Phase II tasks were completed after doing the necessary research:

- Sized new transformer inside the new East Garage Substation
- Sized new ATS to feed all emergency loads
- Sized new emergency generator
- Sized two (2) new main service switches
- Sized the substation room
- Revised the report narrative to include new East Garage Substation
