

NYC SCA PS-193Q Auditorium Upgrade

Electrical engineering for auditorium upgrades

PS-193Q serves 582 students. The school contains an auditorium utilized by various school programs related to art, music, dance, and theatre. As part of sweeping school improvement and building systems upgrades programs, the School Construction Authority authorized an upgrade to the existing auditorium in order to bring the facility up to current standards.

AG provided electrical engineering services for the upgrade of various systems including exit signs, directional signs, electrical power, battery equipment, emergency power.
