

PANYNJ LaGuardia Airport East and West Parking Garages

Full MEP/FP design for six story parking facility

This facility was designed to serve Terminals C and D with 1,120 parking spaces on six levels, connected to Terminal C by a pedestrian bridge, featuring a decorative aluminum fin facade illuminated by LED decorative lighting.

AG performed mechanical, electrical, and plumbing/fire protection, and fire alarm systems design. This includes all of Phase I, as well as a variety of Phase II tasks, such as new emergency generator power, and two main service switches.
